

## **SMARTMARINAS L.P.**

The company SMARTMARINAS L.P. is committed to continuous improvement of quality, through which it also fulfills its broader business objectives.

The results of this commitment are reflected and evaluated by the level of customer satisfaction, as well as the satisfaction of its partners, personnel, and the legal and regulatory authorities governing its operations.

The company monitors technological developments in its field of activity and, with its experienced team, implements methods and techniques to solve any technical problem in the most effective way, always aiming for complete customer satisfaction.

The core principles that guide the operations of SMARTMARINAS L.P. are:

The quality of the products it manufactures

Maximum customer satisfaction

Continuous improvement of the effectiveness of its Quality Management System

The company is committed to:

Meeting all applicable requirements and

Complying with all relevant legal and regulatory frameworks related to its field of operation

Continuously improving its Quality Management System

The implementation of the Quality Management System is comprehensive and conscious across all company members, with everyone adhering to its guidelines and actively contributing to:

The ongoing improvement of quality, and

The growing satisfaction of customers and other interested parties, which are considered key decision-making factors.
